

ProfitNet

PROFIT THROUGH NETWORKS

University of Brighton

“All you commit is your time. And what you stand to gain is
immeasurable”

www.brighton.ac.uk/profitnet

“It’s like having a bunch of non-executive directors contributing
to your business every month”

“I attended ProfitNet with the thought that it was just a good way of networking. It has proven to be much much more. ProfitNet has expanded my thinking about business and has provided a secure and confidential environment to explore new ideas and ways forward. Without the support, insight and experience, as shared with the other members, my company would have encountered irreversible problems, fairly early on.”

ProfitNet is a learning network set up to help companies share, increase and apply knowledge. ProfitNet offers a unique opportunity to grow your business by working with other like minded people; it enables you to generate and develop ideas; encourages creative thinking; explores practical solutions and enables members to benefit from the collective and diverse experience of others in an environment of trust, tolerance and complete confidentiality. Best of all, it is entirely free.

ProfitNet is an innovative programme designed and delivered by the University of Brighton. Due to it’s success ProfitNet is growing. New sector groups are forming across Sussex (ProfitNet was initially established in 2004 with seven sector groups which are still successfully running in Hastings and Bexhill).

If you are a Sussex based business looking to grow, interested in engaging with similar businesses in your sector, ie; Manufacturing/ Engineering; Construction; Creative Industries; Hospitality and Tourism, etc, then ProfitNet could be for you.

Whatever your business challenges joining ProfitNet can offer solutions.

If you don’t do anything else this year, join ProfitNet and you will discover that it is time well spent, helping you to grow a brighter future for your business.

Discover why ProfitNet is different.
