

# **Optical diagnostics and numerical modelling for diesel spray combustion**

Centre for Automotive Engineering research workshop  
Friday 17 October 2014 at 11.00 in Huxley 407

- 11.00 Tea and coffee
- 11.15 Recent research from Toyota Central R&D Labs and the world's fastest optical engine  
**Takayuki Fuyuto (Toyota Central R&D Labs)**
- 11.45 Progress in modelling of automotive fuel droplet heating and evaporation  
**Mansour Al Qubeissi (University of Brighton)**
- 12.15 Diesel spray combustion research for the Engine Combustion Network  
**Julien Manin (Sandia National Laboratories)**
- 12.45 General discussion
